

Weight of Glory

Verse 1:

We are hard pressed on every side
But not crushed, Lord, for you abide here
We are shaken, in this life, but not moved

Verse 2:

Persecuted, but not abandoned
Oh we're surrounded, but not consumed
The rain it comes down, and the waters rise
But we will stand against the tide

Chorus:

So with strength we'll rise
And fix our eyes on what we do not see
We give our lives, a sacrifice
With faith we will believe

Verse 3:

We have this treasure, alive in us
And in your spirit, we will trust
We won't lose heart, and without fear
Declare this hope, our God is here

Chorus:

So with strength we'll rise
And fix our eyes on what we do not see
We give our lives, a sacrifice
With faith we will believe
That all we bear cannot compare with all we will receive
Your eternal weight of glory, your eternal weight of glory

Bridge:

He's gone before us, made a way
By His blood, removed all our shame
See the scars, in His hands
He has reached out and taken us in

(Chorus)
